

Comparing Personality Preferences of Healthcare Professionals

Personality preferences and strengths

1. Life-long learners
2. Think fast, act quickly
3. Take time to consult resources as needed
4. Multi-tasker
5. Deals with the unexpected
6. Likes outdoor work
7. Physical stamina
8. Emotional stamina
9. Likes indoor work
10. Remains calm in an emergency situation
11. Develops long-term patient plans
12. Works with high-tech tools

Analyze each numbered personality preference or strength and match it to the careers listed in the Venn Diagram.

If the preference/strength fits all of the professions place the number in the overlap of the ovals.

If it only fits EMTs, paramedics, and/or dispatchers, place the number in the far right of the diagram not in the overlap.

If the preference/strength fits only nurses, lab technicians, and/or radiologists, place the number in the far left of the diagram not in the overlap.
